LET'S CODE Hour of Code is an introduction to computer science, designed to demystify "code" and show that anyone can learn together the basics to be a maker, a creator, an innovator!

This program is for youth ages 7-12 and requires an adult chaperone to join.

Create Botanically Printed Postcards & Bookmarks!

Take a step outside and witness the bright botanical colors in nature that surround us. Join educators Jessica and Lori to learn how to celebrate this beauty through printing. Capture the bright colors and shapes of plants onto postcards and bookmarks.

Participants will receive a printing kit with postcards and bookmarks on which they can display their creations. Learn about the parts of a plant & processes essential to all life on earth through art.

Participants will need to prepare some items at home for this workshop. Please prepare a hammer, a hard surface to hammer on (such as a piece of wood or a wooden or plastic cutting board), and a towel for the workshop. Participants will also receive an email prior to the workshop with information on how to safely gather flowers & leaves to use to make their art.

HORSE WEEK

JOIN MONROE COUNTY 4-H ON SOCIAL MEDIA FOR FUN FACTS, ACTIVITIES, VIDEOS, IMAGES, AND WRITTEN PIECES

June 21 to June 27

4-H Horse Week

Sunday, June 21, 2020 - Saturday, June 27

Hold onto your hats, Horse Week is coming! The Monroe County 4-H Team is turning the week of June 21st - 27th into "Horse Week," showcasing our horse program on social media with fun facts and activities about horses. We will also be having a naming contest for ROC Animal School's newest Horse Mascot! Don't miss it!

Each day we hope to put up some kind of horse related content, such as videos, images, and written pieces, and we would love your help! If you would like to contribute, please sign up for a topic at the link below, and send content to Jessica (jar642@cornell.edu) by June 17th!
