Finding a Certified Arborist

The International Society of Arborists or ISA certifies arborists who have passed ISA's credential exam. The exam verifies that the arborist is knowledgeable of proper and acceptable tree care practices. ISA Certified Arborists® are required to attend continuing education classes in order to maintain their certification status.

The easiest way to locate the list of certified arborists in your area is through the internet by going to the ISA website and following the prompts. If you do not have a computer, visit your local library and seek help from the resource librarian.

- Type in www.treesaregood.org
- Click on Find an Arborist
- Click again on Find an Arborist
- If you don't know the name of an arborist, click on country, choose United States and click on search
- Insert your Postal (zip) Code, click on the within dropdown box to request distance in miles (~25) from your zip code area. This will provide all the names of certified arborists within that area.
- Click on first or last name for contact information and the services they provide

Building Strong and Vibrant New York Communities

Cornell Cooperative Extension is an employer and educator recognized for valuing AA/EEO, Protected Veterans, and Individuals with Disabilities and provides equal program and employment opportunities.
